

Senior Vice President,
Corporate Incubation
Group (CIG)

Siva K. Yerramilli is Senior VP of Strategic Programs at Synopsys and leads Corporate Incubation Group (CIG). Siva is responsible for driving the incubation of bold new ideas that can result in big-step innovation, especially cross-domain initiatives. Some of the previous initiatives that have graduated from incubation to productization have included design technology co-optimization (DTCO) and many other initiatives. Siva joined Synopsys in 2019, prior to which, Siva held several technical and management positions across various aspects of technology development/enablement, silicon product development and Intel Custom Foundry at Intel. He has more than 37 years of experience in the semiconductor industry.

Siva has a bachelor's in electronics and telecommunications from Jawaharlal Nehru Technological University, India, a master's in computer engineering from Syracuse University and has completed the Executive Management Program at Harvard University.
